**OnCommand Parts & Service Portal**

OnCommand Parts & Service Information provides technicians access to the most up-to-date, VIN-based service and parts information. It's an invaluable centralized source of essential service information to help improve vehicle repairs and maintenance, repair shop efficiency, technical knowledge and vehicle uptime.

Features and Benefits:

- With a subscription, technicians can gain real-time, up-to-date VIN-based service and parts information
- Locate technical information by major component group, model, vendor, engine and feature code
- Service manuals and bulletins are illustrated and include repair, overhaul, troubleshooting tips and diagnostic information
- Access to iKNOW technical database to search service articles by entering symptom terms and/or descriptions

With a login, you will have access to OnCommand's service and parts portal. If you would like to sign up for this fee-based service portal, please contact Cassie Angell at 763.271.2973, mnpartscoord@hoglundbus.com.

## WARNING INDICATORS GUIDE: IC BUS CE SERIES

**AWL** - Amber Warning Lamp illuminates when the vehicle needs to be serviced at the first available opportunity. Additional information will be displayed on the LCD screen

Illuminates **YELLOW**. Used in conjunction with other Warning indicators to indicate an Alert condition to the operator. Additional information will be displayed on the LCD screen.

Optional Wait to Start Lamp Illuminates **YELLOW** when intake air heaters and glow plugs are in operation and special starting procedures are required.

Illuminates **YELLOW** (Solid or Flashing) when the Diesel Exhaust Fluid (DEF) level is low.

Illuminates **YELLOW** when exhaust system components are operating under normal conditions and exhaust gases are at extremely high temperatures.

Diesel Particulate Filter (DPF) status indicator. Illuminates **YELLOW** (Solid or Flashing) to indicate the need to regenerate the Diesel Particulate Filter.

**MIL** - The Malfunction Indicator Lamp illuminates when the On-Board Diagnostics (OBD) detect a malfunction related to the emissions control system. The vehicle needs to be serviced at the first convenient opportunity. Additional information will be displayed on the LCD screen.

**RSL** - The **RED** Stop Lamp illuminates **RED** when a serious problem has occurred. If the **RED** Stop Lamp illuminates, immediately pull the vehicle safely off the roadway and stop the engine. The engine should not be restarted prior to be serviced. Additional information will be displayed on the LCD screen.

Illuminates **YELLOW** when the transmission is not engaged in the selected gear.

Illuminates **YELLOW** when the traction control system is turned off. Blinks on if slippery road conditions may exist. If this happens, adjust your driving accordingly.

Illuminates **YELLOW** when transmission Economy Mode is selected.

Illuminates **YELLOW** when the anti-lock brake system malfunction has been detected.

Illuminates when the amber warning flashing lights are activated.

Optional indicator illuminates **RED** immediately after ignition is turned on to remind driver to buckle up.

Illuminates **RED** when the parking brake is applied.

Illuminates when the emergency exit is not securely closed when the key switch is in the Accessory or ON position.

Illuminates when the red flasher warning lights are activated.
